Dear Mr Frolov,

Thank you for your letter dated 26th April 1995.

I have pleasure in enclosing our recent newsletter which gives you an idea of the technologies we currently have.

We would be happy to network you with other researchers around the world and if you would like to send us any relevant literature it would be helpful.

We have already passed your name on to the Scientific and Medical Network (Address see below) who not only are having a conference in St Petersburg but are also having a conference on energy later this year.

We look forward to receiving your information

Yours sincerely
